

How to Find In-Route Fuel Stations with the CFN Site Locator Website

1. Visit <https://cfnfleetwide.com/site-locator/>

2. Locate and click on the blue "Route" button.

3. The next screen should be what is displayed below:

The screenshot shows the 'Site Locator' application interface. At the top, there is a blue header with the 'Site Locator' logo and two tabs: 'LOCATION' and 'ROUTE'. Below the header, the interface is divided into two main sections: 'Map Your Route' and 'Search Options'. In the 'Map Your Route' section, there are two rows, A and B, each with a blue square containing the letter, a text input field labeled 'Location', and a close button (X). A plus sign (+) is visible below these rows. In the 'Search Options' section, there are two rows of dropdown menus: 'Locations' and 'Fuel Types' in the first row, and 'Driver Comforts' and 'Site Facilities' in the second row. Below these are checkboxes for 'Search within 1 km of this route' and 'Show directions only'. At the bottom, there are two buttons: 'SHOW LOCATIONS' and 'CLEAR OPTIONS'.

4. In the “Map Your Route” section, enter the start and end of the route in Location A and Location B text fields, respectively.

This is a close-up screenshot of the 'Map Your Route' section. It shows two rows, A and B. Each row has a blue square with the letter 'A' or 'B', followed by a text input field containing the word 'Location', and a close button (X) on the right.

5. In the Search Options section, locate the Site Facilities option and click on the options that are necessary for your driver. For example, if the driver is using an 18-wheel truck, check the “18 Wheel Access” box. If none of these options are necessary, then you can skip this step.

The screenshot shows the 'Search Options' panel. It contains four dropdown menus: 'Locations', 'Fuel Types', 'Driver Comforts', and 'Site Facilities'. The 'Site Facilities' dropdown is expanded, showing a list of facilities with checkboxes: Highway Access, Truck Stop, 18 Wheel Access, Truck Wash, Truck Parking, C-Store, Scales, High Speed Pumps, Night Service Phone, Motel, Lounge, and Laundry.

6. If you want to choose locations that give you wholesale prices to gas and diesel, click the dropdown arrow of the "Locations" option. Then, click on the "CFN Cardlock" and "CFNnet" check boxes.

The screenshot shows the 'Search Options' panel. The 'Locations' dropdown is expanded, showing a list of location types with checkboxes: CFN Cardlock, CFNnet, Chevron/Texaco, Pilot, Flying J, Sinclair, LOVES, and Speedway. The 'Fuel Types', 'Driver Comforts', and 'Site Facilities' dropdowns are also visible but not expanded.

7. When you have inputted the needed information, locate and click on the "Show Locations" button.

[SHOW LOCATIONS](#)

8. The generated Google Maps will share the fuel stations that give wholesale prices to gas and diesel.
9. When you scroll down, the directions are shared, along with the in-route fuel stations at each step of the directions.
