

Let Us Help Your Business Grow

ABOUT PRIMARY FUNDING

We have been providing positive cash flow solutions to businesses for 25 years. We are the difference between your business growing or standing still.

WHAT WE DO

We provide a form of financing called “Factoring” for businesses unable to qualify for traditional bank loans, or lines of credit. A factor buys invoices, which provides instant cash. This helps businesses speed up cash flow without taking on debt or diluting equity. Factoring is beneficial for cash management during start-up or rapid expansion.
