Figure 1: Screenshot of Transaction Menu

The Transaction Menu allows the user to view purchases in real time on fuel sites across the network. There are six fields available to the user:

1. **Card Number:** The last 7 digits of a card.
2. **Site Number:** Also known as the CFN ID.
3. **Account Number:** The 3- or 4-digit number that is associated with your account.
4. **Date:** The year, month, and day that denotes the start of the date range. This is required.
5. **End Date:** The year, month, and day that denotes the end of the date range. This is optional.
6. **Time:** The hours, minutes, and seconds that happened with respect to your local time zone. This is optional.
