

# How to Activate and Deactivate a Driver's PIN (Floating PIN System Only)

The purpose of this document is to teach the user how to activate and inactivate a driver's PIN when they have a Floating PIN System.

1. Go to <http://www.cfnnet.com/logonacct.html> and input your credentials.

**CFN**  
COMMERCIAL  
FUELING  
NETWORK

**Account & Card Info**

CFN Participant Account Logon

Participant ID:

Account Number:

Password:

[Site Locator](#)

2. In the CFN Main Search Menu, click on the “Cards” option.

**Energie Fuel & Lakeview Petro #344**

Welcome to the CFN Main Search Menu, please select one of the following:

- [Transactions](#)
- [Authorizations](#)
- [Cards](#)
- [Account Summaries](#)
- [Update Profile](#)

©2016 Commercial Fueling Network 650-356-3000 or toll free 800-899-2236

- In the Card Menu, enter the 7 digits of the virtual driver number in the “Go To Card” Text field

Go To Card:

- Once you have entered the virtual driver number, click on either the “Activate” or “Inactivate” buttons to make the driver’s PIN active or inactive.

Go To Card:

- In the next screen, you should see the information broken down into 12 sections:

Card	Status	Profile	Account	Date Updated	Time Updated	POS Restrict	Txn Count	Txn Date	Odom	ExpDate	Cardless
<a href="#">1262001</a>	valid	0	<a href="#">1200</a>	20221031	09:20:48	no	0	20191210	0	9912	No

- Under the Status column, the word “valid” or “invalid” is shown. This shares whether the card can be used or not.
