

How to Change Your Password on Octane

1. Visit octaneconnect.com and input your log-in credentials.

The image shows the Octane Connect login interface. At the top is the Octane Connect logo, which consists of two interlocking circles, one orange and one blue. Below the logo, the text "OCTANE CONNECT" is displayed in orange and blue. There are two input fields: "Username" and "Password". The "Password" field has a small eye icon to its right. Below the input fields is a blue "Login" button.

2. Once you are logged in, locate and click on the blue wrench and hammer button on the top righthand corner.

3. Click on the “Change Password” button.

4. In the Change Password pop-up, enter your old password in the Old Password text field, then your new password in both the New Password and Retype New Password text fields.

Change Password ✕

Old Password:

New Password:

Retype New Password:

A combination of upper and lower case along with number(s) and special characters are required for a strong password!

5. Once completed, click on the green Change Password button in the bottom right corner of the Change Password pop-up.
